A letter dated at Nuevitas, May 11th, contains the announcement that a republican government bas been fully organized by the insurgents in Cuba. Cespeces was elected president, and Aquilera vice president, and Quesada commander-in-chief of all the forces. President Cepedes' inaugural address is published in some of the papers, and also his farewell address in resigning his provisional authority. It is reported that several hundred men are in camp near New Orleans, drilling and perfecting themselves in the use of arms, preparatory to going to Cuba to aid the insurgents. The exact position of the camp is unknown to the United States authorities, and every precaution is used to prevent its becoming known. The men are mostly ex. Sonfederate and Union soldiers, and are well armed with Spencer rifies. Two veasels, it is alleged, have been chartered to take these men to the Florida coast, from which place a steamer will convey them to the eastern end of the Island of Cuba. The sum of \$170,00s has been raised in New Orleans, it is further said, to equip and transport the men, and \$10,00s had been received from Savennrh.

Marquis Santa Lucia and Major Lopez. The battle took place in Alta Gracia, between Nuevitas and Puerto Principe, and insted eleven hours. The slaughter, they say, was terrible. The patriots, it is reported, loss some 700 men killed rad wounded, and the Spaniards' loss must have been greater, as they were attacked by the front and right flank, and their squares broken up and butchered by a cavalry corps four thousand strong. Their reports own a loss of one colonel and twenty-five officers killed, and their squares broken up and butchered by a cavalry corps four thousand strong. Their reports Havara.

THE WORKING PEOPLE.—The store masons of Orange, N. J., are again on a strike, in consequence of a reduction of wages from \$4.50 to \$4 a day. They had struck some time ago for an advance from \$4 to \$4.50 and were successful, but the employers now refuse to pay that rate. The Hotel Watters' Union of New York have appointed a committee to ask the hotel proprietors to raise their wages from \$19 to \$35 a month anter June 1.t. The waiters complain that they are obliged to work 15 or 16 hours, a day, and rre put to great expense in providing their clothes. The clothing manuacturers on a small scale in New York have formed themselves into twelve unions and are making preparations to demand on increases of \$9 per cent. upon the present acale of prices. These small manufacturers make up the goods for the large ready-made clothing houses, and employ in some instances as many a fifty female hands. The hack drivers of New York made a demand upon the owners for an increase of wrges from \$1.75 to \$3 a day. He, too, wanted to take the same train, but, alias, was too late. As he looked on the train, now fast moving away, he set down his carpetbag, wiped his face, and very deliberately and emphatically said: "Bann that train!"
